

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS MARCH 2024

Release Number: CB24-67 FT-900A (24-03)

APRIL 23, 2024 — The U.S. Census Bureau announced today that preliminary March steel imports were \$2.8 billion (2.3 million metric tons) compared to the preliminary February totals of \$2.6 billion (2.2 million metric tons).

The March change in steel imports based on metric tonnage reflected increases in hot rolled sheets, galvanized hot dipped sheets and strips, and plates in coils. Decreases occurred in blooms, billets, and slabs and oil country goods. Increases occurred primarily with Korea. Decreases occurred primarily with Brazil.

The year-to-date final statistics through February 2024 showed steel imports of 4.6 million metric tons compared with 4.4 million metric tons through February 2023. The largest commodity increases occurred primarily in blooms, billets, and slabs. Decreases occurred with oil country goods and reinforcing bars. The largest country increases occurred primarily with Brazil. Decreases occurred with Mexico and China.

The April report is scheduled for release on May 23, 2024. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
