

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS JULY 2024

Release Number: CB24-135 FT-900A (24-07)

August 27, 2024 — The U.S. Census Bureau announced today that preliminary July steel imports were \$2.7 billion (2.2 million metric tons) compared to the preliminary June totals of \$2.4 billion (2.0 million metric tons).

The July change in steel imports based on metric tonnage reflected increases in tin plate and cold rolled sheets. Decreases occurred in oil country goods and blooms, billets and slabs. Increases occurred primarily with Brazil and Japan. Decreases occurred primarily with Mexico.

The year-to-date final statistics through June 2024 showed steel imports of 13.9 million metric tons compared with 13.6 million metric tons through June 2023. The largest commodity increases occurred with galvanized hot dipped sheets and strips. Decreases occurred with oil country goods. The largest country increases occurred primarily with Brazil and Korea. Decreases occurred primarily with Mexico.

The August report is scheduled for release on September 25, 2024. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
