

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS AUGUST 2024

Release Number: CB24-157 FT-900A (24-08)

September 25, 2024 — The U.S. Census Bureau announced today that preliminary August steel imports were \$2.6 billion (2.1 million metric tons) compared to the preliminary July totals of \$2.7 billion (2.2 million metric tons).

The August change in steel imports based on metric tonnage reflected decreases in wire rods, plates cut lengths, and heavy structural shapes. Increases occurred in blooms, billets, and slabs. Decreases occurred primarily with Japan. Increases occurred primarily with Korea.

The year-to-date final statistics through July 2024 showed steel imports of 16.1 million metric tons compared with 15.8 million metric tons through July 2023. The largest commodity increases occurred with galvanized hot dipped sheets and strips. Decreases occurred with oil country goods. The largest country increases occurred primarily with Brazil. Decreases occurred primarily with Mexico.

The September report is scheduled for release on October 25, 2024. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
