

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS AUGUST 2025

Release Number: CB25-149 FT-900A (25-08)

September 24, 2025 — The U.S. Census Bureau announced today that preliminary August steel imports were \$1.8 billion (1.7 million metric tons) compared to the preliminary July totals of \$2.2 billion (2.0 million metric tons).

The August change in steel imports based on metric tonnage reflected decreases in blooms, billets, and slabs, tin plate, and cold rolled sheets. Increases occurred in line pipe less than or equal to sixteen inches in diameter, wire rods, and plates in coils. Decreases occurred primarily with Korea and Mexico. Increases occurred primarily with Japan and Argentina.

The year-to-date final statistics through July 2025 showed steel imports of 15.3 million metric tons compared with 16.1 million metric tons through July 2024. The largest commodity decreases occurred with galvanized hot dipped sheets and strips and hot rolled sheets. Increases occurred with blooms, billets, and slabs and tin plate. The largest country decreases occurred primarily with Canada and Japan. Increases occurred primarily with India and Germany.

The September report is scheduled for release on October 27, 2025. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
