

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS FEBRUARY 2026

Release Number: CB26-54 FT-900A (26-02)

NOTICE:

In this release of "Preliminary: Imports for Consumption of Steel Products", preliminary February 2026 import data are compared to final January 2026 data rather than preliminary January 2026 data, as the January 2026 preliminary release was suspended. For this reason, preliminary data for January are shown as "N/A".

Beginning with the March 2026 "Preliminary: Imports for Consumption of Steel Products" release, prior month preliminary data will no longer be included in the exhibits.

March 25, 2026 — The U.S. Census Bureau announced today that preliminary February steel imports were \$1.5 billion (1.5 million metric tons) compared to the final January totals of \$1.5 billion (1.5 million metric tons).

The February change in steel imports based on metric tonnage reflected increases in blooms, billets, and slabs, standard rails, and oil country goods. Decreases occurred in heavy structural shapes, plates in coils, and galvanized hot dipped sheets and strips. Increases occurred primarily with Japan and Brazil. Decreases occurred primarily with Mexico and Taiwan.

The year-to-date final statistics through January 2026 showed steel imports of 1.5 million metric tons compared with 2.8 million metric tons through January 2025. The largest commodity decreases occurred with blooms, billets, and slabs and oil country goods. Increases occurred with electrolytic galvanized sheets and strips. The largest country decreases occurred primarily with Canada, Brazil, and Mexico. Increases occurred primarily with Argentina, India, and Australia.

The March report is scheduled for release on April 23, 2026. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at

NOTE: Data shown reflect imports of steel products from all countries included in the monitored steel categories, regardless of whether the product or country is subject to the safeguard measures. See the cover report specifically explaining the current month's preliminary steel imports trade data or www.census.gov/foreign-trade/Press-Release/steel_index.html.

Not Seasonally Adjusted

Exhibit 6. U.S. Imports For Consumption of Monitored Steel Products from Selected Countries

Quantity in metric tons/value in thousands of dollars. (-) Represents zero or less than one half of measurement shown. Details may not equal totals due to rounding.
