

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS MARCH 2026

Release Number: CB26-69 FT-900A (26-03)

April 23, 2026 — The U.S. Census Bureau announced today that preliminary March steel imports were \$1.6 billion (1.6 million metric tons) compared to the final February totals of \$1.5 billion (1.5 million metric tons).

The March change in steel imports based on metric tonnage reflected increases in plates in coils, hot rolled sheets, and plates cut lengths. Decreases occurred in reinforcing bars, blooms, billets, and slabs, and standard rails. Increases occurred primarily with Canada, Taiwan, and Brazil. Decreases occurred primarily with Japan, Mexico, and Argentina.

The year-to-date final statistics through February 2026 showed steel imports of 3.0 million metric tons compared with 4.8 million metric tons through February 2025. The largest commodity decreases occurred with blooms, billets, and slabs and hot rolled sheets. Increases occurred with tin free steel and heavy structural shapes. The largest country decreases occurred primarily with Canada, Brazil, and Mexico. Increases occurred primarily with Korea, Argentina, and India.

The April report is scheduled for release on May 26, 2026. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
