

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS APRIL 2026

Release Number: CB26-89 FT-900A (26-04)

May 26, 2026 — The U.S. Census Bureau announced today that preliminary April steel imports were \$1.7 billion (1.7 million metric tons) compared to the final March totals of \$1.6 billion (1.6 million metric tons).

The April change in steel imports based on metric tonnage reflected increases in tin plate, reinforcing bars, and blooms, billets, and slabs. Decreases occurred in hot rolled sheets, plates in coils, and oil country goods. Increases occurred primarily with Mexico, Germany, and Argentina. Decreases occurred primarily with Brazil and Turkey.

The year-to-date final statistics through March 2026 showed steel imports of 4.6 million metric tons compared with 7.1 million metric tons through March 2025. The largest commodity decreases occurred with blooms, billets, and slabs and galvanized hot dipped sheets and strips. Increases occurred with heavy structural shapes and tin free steel. The largest country decreases occurred primarily with Canada, Brazil, and Mexico. Increases occurred primarily with Korea, Argentina, and India.

The May report is scheduled for release on June 24, 2026. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
