

PRELIMINARY: U.S. IMPORTS FOR CONSUMPTION OF STEEL PRODUCTS JULY 2026

Release Number: CB26-137 FT-900A (26-07)

August 27, 2026 — The U.S. Census Bureau announced today that preliminary July steel imports were \$2.0 billion (2.1 million metric tons) compared to the final June totals of \$1.9 billion (1.9 million metric tons).

The July change in steel imports based on metric tonnage reflected increases in blooms, billets, and slabs, oil country goods, and wire rods. Decreases occurred in cold rolled sheets, hot rolled sheets, and all other metal-coated sheets and strips. Increases occurred primarily with Korea, Indonesia, and Russia. Decreases occurred primarily with Argentina, Japan, and Australia.

The year-to-date final statistics through June 2026 showed steel imports of 10.3 million metric tons compared with 13.3 million metric tons through June 2025. The largest commodity decreases occurred with blooms, billets, and slabs, oil country goods, and galvanized hot dipped sheets and strips. Increases occurred with heavy structural shapes and reinforcing bars. The largest country decreases occurred primarily with Canada, Brazil, and Mexico. Increases occurred primarily with Korea, Argentina, and Indonesia.

The August report is scheduled for release on September 24, 2026. View the full schedule at: <www.census.gov/foreign-trade/schedule.html>. The full text and tables for this release can be found at <www.census.gov/foreign-trade/Press-Release/steel_prelim.html>.

EXPLANATORY NOTES

The data in this report are preliminary and subject to revisions. Analysis of recent months for steel product imports indicate the value of preliminary data should equal about 96 percent of the final value reported in the regular monthly trade statistics report. Preliminary data reported for individual steel categories and at the individual country of origin level have been less consistently predictive of the final data reported in the regular monthly trade statistics. For further details, visit our web site at <www.census.gov/trade>. On the website, you can access product by country and country by product tables.
