Disclaimer: The decision to utilize a specific software vendor is strictly an individual user decision. Customs and Border Protection and the U.S. Census Bureau do not endorse any particular vendor/service center. The organizations shown above may not offer all the services required for full AES participation. They may be a software vendor who will provide the needed software for handling AES data, or a service center who acts as a communications and software source for transmitting and receiving Customs data for AES participants. It is the responsibility of the user to obtain specific capabilities from the particular organization. (Document Last Updated 01/31/2024)
