Section IV - Chapter 20

Preparations of Vegetables, Fruit, Nuts or Other Parts of Plants

Notes

- 1. This chapter does not cover:
 - (a). Vegetables, fruit or nuts, prepared or preserved by the processes specified in chapter 7, 8 or 11;
 - (b.) Vegetable fats and oils (chapter 15);
 - (c). Food preparations containing more than 20 percent by weight of sausage, meat, meat offal, blood, insects, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof (chapter 16);
 - (d). Bakers' wares and other products of heading 1905; or
 - (e). Homogenized composite food preparations of heading 2104.
- 2. Headings 2007 and 2008 do not apply to fruit jellies, fruit pastes, sugar-coated almonds or the like in the form of sugar confectionery (heading 1704) or chocolate confectionery (heading 1806).
- Headings 2001, 2004 and 2005 cover, as the case may be, only those products of chapter 7 or of heading 1105 or 1106 (other than flour, meal and powder of the products of chapter 8) which have been prepared or preserved by processes other than those referred to in note 1 (a).
- 4. Tomato juice the dry weight content of which is 7 percent or more is to be classified in heading 2002.
- 5. For the purpose of heading 2007 the expression "obtained by cooking" means obtained by heat treatment at atmospheric pressure or under reduced pressure to increase the viscosity of a product through reduction of water content or other means.
- 6. For the purposes of heading 2009, the expression "juices, unfermented and not containing added spirit" means juices of an alcoholic strength by volume (see note 2 to chapter 22) not exceeding 0.5 percent volume.

Subheading Notes

- For the purposes of subheading 2005.10, the expression "homogenized vegetables" means preparations of vegetables finely homogenized, put up for retail sale as food suitable for infants or young children or for dietetic purposes, in containers of a net weight content not exceeding 250 g (8.83 oz.). For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of vegetables. Subheading 2005.10 takes precedence over all other subheadings of heading 2005.
- 2. For the purposes of subheading 2007.10, the expression "homogenized preparations" means preparations of fruit, finely homogenized, put up for retail sale as food suitable for infants or young children or for dietetic purposes, in containers of a net weight content not exceeding 250 g (8.83 oz.). For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of fruit. Subheading 2007.10 takes precedence over the other subheadings of heading 2007.
- 3. For the purpose of subheading 2009.12, 2009.21, 2009.31, 2009.41, 2009.61 and 2009.71, the expression "Brix value" means the direct reading of degrees Brix obtained from a Brix hydrometer or of refractive index expressed in terms of percentage sucrose content obtained from a refractometer, at a temperature of 20 degrees C or corrected for 20 degrees C if the reading is made at a different temperature.

Statistical Notes

- 1. For the purposes of heading 2009, the term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.
- 2. In determining the degree of concentration of mixed fruit juices, the mixture shall be considered as being wholly of the component juice having the lowest Brix value.
- 3. For the purposes of heading 2009, the term "liters" in the "Units of Quantity" column of the provisions applicable to fruit juices means liters of natural unconcentrated juice or liters of reconstituted juice.
- 4. The term "reconstituted fruit juice" means the product which can be obtained by mixing the exported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States.

- 5. In determining the number of liters of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the exported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.
- 6. For purposes of this chapter, the expression "Certified organic" refers to a fresh or processed agricultural product that is certified to:
 - (a). The United States Department of Agriculture National Organic Program Regulation (7 CFR 205),
 - (b). The Canadian Organic Products Regulations (SOR/2006-338 COPR),
 - (c). The European Union (EU) Council Regulation (EC) No. 834/2007 and Commission Regulations (EC) No. 889/2008 and 1235/2008,
 - (d). The Japanese Agricultural Standard (JAS) for Organic Plants (Notification No. 1605 of 2005) and the JAS for Organic Processed Foods (Notification No. 1606 of 2005),
 - (e). The Republic of Korea Act on Promotion of Environmentally-Friendly Agriculture and Fisheries and Management of and Support for Organic Food, and its implementing regulations for processed foods, or
 - (f). The Swiss Ordinance on Organic Farming and the Labeling of Organically Produced Products and Foodstuffs (910.18) and Federal Department of Economic Affairs, Education and Research (EAER) Ordinance on Organic Farming of 22 September 1997 (910.181) and its regulations.
