

How are exports and imports of gold recorded in BEA's International Economic Accounts?

International trade in goods statistics are presented in the U.S. International Trade in Goods and Services news release, published jointly by the U.S. Bureau of Economic Analysis (BEA) and the U.S. Census Bureau each month, and in International Accounts Detailed Goods Trade Data published by BEA on the same day. The data in these releases are presented on both a Census basis and a balance of payments (BOP) basis by end-use classification code.
