Persons with a Disability: Labor Force Characteristics — 2015

In 2015, 17.5 percent of persons with a disability were employed, the U.S. Bureau of Labor Statistics reported today. In contrast, the employment-population ratio for those without a disability was 65.0 percent. The employment-population ratio for persons with a disability edged up in 2015, and the ratio for persons without a disability continued to increase. The unemployment rate for persons with a disability fell to 10.7 percent in 2015, and the rate for those without a disability declined to 5.1 percent.

The data on persons with a disability are collected as part of the Current Population Survey (CPS), a monthly sample survey of about 60,000 households that provides statistics on employment and unemployment in the United States. The collection of data on persons with a disability is sponsored by the Department of Labor's Office of Disability Employment Policy. For more information, see the Technical Note in this news release.

Highlights from the 2015 data:

- Persons with a disability were about three times as likely as those with no disability to be age 65 and over. (See table 1.)
- For all age groups, the employment-population ratio was much lower for persons with a disability than for those with no disability. (See table 1.)
- Unemployment rates were higher for persons with a disability than for those with no disability among all educational attainment groups. (See table 1.)
- In 2015, 32 percent of workers with a disability were employed part time, compared with 18 percent for those with no disability. (See table 2.)
- Workers with a disability were more likely to be self-employed than those with no disability. (See table 4.)

Demographic characteristics

Persons with a disability tend to be older than persons with no disability, reflecting the increased incidence of disability with age. In 2015, 47 percent of persons with a disability were age 65 and over, compared with 15 percent of those with no disability. Women were somewhat more likely to have a
