This report was prepared under the general direction of Franklin Winters, Assistant Division Chief for Research and Methodology, Economic Planning and Coordination Division. Paul Hanczaryk, Chief, Register Analysis Branch, supervised the preparation of this report and was assisted by Susan Keehan, Tracy Palmer, and Jim Warden. Joel Fowler, Mary Green, Lavelle Lee, Tracy Palmer, Jim Warden, and Jon Youngman contributed in resolving establishment processing problems and in data analysis. David Chapman contributed to the editing system and provided other methodological improvements.

Additional data analysis was provided by the staffs of Bernard J. Fitzpatrick, Assistant Division Chief for Collection Activities, Economic Planning and Coordination Division, assisted by David Eade; and Angela Feldman Harkins, Assistant Division Chief, Processing, National Processing Center, assisted by Marsha Sowders and Jan Speaker. Statistical methodology and quality assurance operations were performed by Michael Kornbau, Steve Klement, Thomas Cevis, and Michelle Vile.

Steven McCraith, Chief, Census Related Surveys Branch, Economic Statistical Methods and Programming Division, assisted by Dan Vacca, supervised computer support operations. Jerry Richards and Bob Penrod provided additional support for computer operations.

Donna L. Hambric, Assistant Division Chief for Customer Relationship and Products, was responsible for overseeing the systems and information for dissemination. Douglas J. Miller, Chief, Tables and Dissemination Branch, assisted by Lisa Aispuro, Jamie Fleming, John C. Walsh, Andrew W. Hait, Shawna Orzechowski, and Nathan Scarlett were responsible for developing the data dissemination systems and procedures.

The Economic Statistical Methods and Programming Division, Howard R. Hogan, Chief, developed and coordinated the computer processing systems. Barry F. Sessamen, Assistant Division Chief for Post Collection, was responsible for design and implementation of the processing systems and computer programs. Gary T. Sheridan, Chief, Macro Analytical Branch, assisted by Apparao V. Katikineni and Edward F. Johnson, provided computer programming and implementation.

Bernadette J. Beasley, Michael T. Browne, and Kevin Proctor of the Administrative and Customer Services Division, Walter C. Odom, Chief, provided publications and printing management, graphics design and composition, and editorial review for print and electronic media. General direction and production management were provided by James R. Clark, Assistant Division Chief.

Special acknowledgment is also due the many businesses whose cooperation contributed to the publication of these data.

Introduction

PURPOSES AND USES OF THE COUNTY BUSINESS PATTERNS

County Business Patterns is an annual series that provides subnational economic data by industry. The series is useful for studying the economic activity of small areas; analyzing economic changes over time; and as a benchmark for statistical series, surveys, and databases between economic censuses. Businesses use the data for analyzing market potential, measuring the effectiveness of sales and advertising programs, setting sales quotas, and developing budgets. Government agencies use the data for administration and planning.

County Business Patterns covers most of the country’s economic activity. The series excludes data on self-employed individuals, employees of private households, railroad employees, agricultural production employees, and most government employees.

This series has been published annually since 1964 and at irregular intervals dating back to 1946. The comparability of data over time may be affected by definitional changes in establishments, activity status, and industrial classifications. For more details on these changes, see the section “Comparability With Other Data.”

INDUSTRY CLASSIFICATIONS

Data from the 2004 County Business Patterns are published primarily according to the 2002 North American Industry Classification System (NAICS). The 2004 County Business Patterns series includes the following NAICS sectors:

11 Forestry, Fishing and Hunting, and Agricultural Support Services (NAICS 113-115)
21 Mining
22 Utilities
23 Construction
31-33 Manufacturing
42 Wholesale Trade
44-45 Retail Trade
48-49 Transportation and Warehousing
51 Information
52 Finance and Insurance
53 Real Estate and Rental and Leasing
54 Professional, Scientific, and Technical Services
55 Management of Companies and Enterprises
56 Administrative and Support and Waste Management and Remediation Services
61 Educational Services
62 Health Care and Social Assistance
71 Arts, Entertainment, and Recreation
72 Accommodation and Food Services
81 Other Services (except Public Administration)
99 Industries Not Classified

County Business Patterns data are tabulated by industry as defined in the manual entitled North American Industry Classification System: United States, 2002 with some exceptions.

The 2004 County Business Patterns covers all NAICS industries except crop and animal production (NAICS 111,112), rail transportation (NAICS 482), Postal Service (NAICS 491), pension, health, welfare, and vacation funds (NAICS 525110, 525120, 525190), trusts, estates, and agency accounts (NAICS 525920), private households (NAICS 814), and public administration (NAICS 92).

RELATIONSHIP TO HISTORICAL INDUSTRY CLASSIFICATIONS

Prior to the 1998 County Business Patterns series, data were published according to the Standard Industrial Classification (SIC) system. NAICS identifies new industries, redefines concepts, and develops classifications to reflect changes in the economy. While many of the individual NAICS
industries correspond directly to industries as defined under the SIC system, most of the higher level groupings do not. Particular care should be taken in comparing data for construction, manufacturing, retail trade, and wholesale trade, which are sector titles used in both the NAICS and SIC systems, but cover somewhat different groups of industries. A description and comparison of the NAICS and SIC systems can be found in the 2002 NAICS and 1987 Correspondence Tables on the Internet at www.census.gov/epcd/naics02/N02TOS87.HTM.

COMPARABILITY WITH OTHER DATA

Earlier County Business Patterns

The comparability of data with previous County Business Patterns series may be affected by the following revisions:

- The change in industrial classification systems from the Standard Industrial Classification (SIC) to the North American Industry Classification System (NAICS) occurred in 1998 for the 50 states and District of Columbia; the change from SIC to NAICS occurred in 2003 for the Puerto Rico County Business Patterns data series. A complete description of the correspondence between the SIC system and the NAICS is located at the following link: www.census.gov/epcd/www/naicstab.htm.
- Beginning with the 2003 County Business Patterns data series, the industry classifications are based on the 2002 North American Industry Classification System (NAICS). The revisions from the 1997 NAICS are primarily in the Construction, Wholesale Trade, Retail Trade, and Information sectors. A complete description of the changes in NAICS codes from 1997 to 2002 is located at the following link: www.census.gov/epcd/naics02.
- Beginning with the 2003 County Business Patterns series, cases previously classified as “Administrative and auxiliary” are coded in the operating NAICS sector of the establishment.
- The change in definition of “active” establishments in 1983.
- The change from a “reporting unit” concept to “establishment”-based data in 1974.

2002 Economic Census

Definitional and coverage differences may affect the direct comparison of 2002 Economic Census and County Business Patterns data. Definitions of an establishment, employment, and payroll are detailed in Appendix A, Explanation of Terms, of each publication.

The 2002 Economic Census generally uses respondent-reported data. County Business Patterns uses administrative record data for small establishments. Although efforts are made to resolve significant differences in the data, differences are known to exist.

Some large companies report different activities at the same location as separate profit centers. The County Business Patterns program treats each profit center as a separate establishment. The 2002 Economic Census may combine the profit centers into one establishment. This results in establishment count differences.

DATA PRODUCTS

Reports

The County Business Patterns data series includes a separate printed report for each state, the District of Columbia, Puerto Rico, and the United States. Individual state reports present payroll and employment data for the state and counties by industry. The reports also include the number of establishments by industry and employment size class.

The United States report presents similar data for the country as a whole. In addition, the U.S. report provides employment and payroll data by employment size class for major industry groups.
Data for industries with fewer than 100 employees, as well as data for detailed industries withheld to avoid disclosing data for individual companies, are not shown in the printed reports. However, these data are available on CD-ROM and other computer products.

The following is a description of the County Business Patterns publications issued in previous years:

- **1974 through 2003.** Data are provided for mid-March employment, first-quarter and annual payrolls, and establishments, by industry, for each county in the state and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or establishments. Refer to General Explanation for a description of the types of employment covered.

- **1964 through 1973.** Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county and metropolitan area in the state and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or reporting units.

- **1959 and 1962.** Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county in the state and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or reporting units. Data are combined for some counties in eight states.

- **1956.** Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county in the state and, in a separate report, for the United States. Data are included for SIC economic divisions, major groups, and selected three-digit SICs. Data are combined for some counties in eight states.

- **1949 and 1950.** Data are provided for first-quarter manufacturing establishments, employment, and taxable payrolls for each large county in the state and, in a separate report, for the United States. Data are included for manufacturing major industry groups and selected three-digit SICs. Manufacturing totals are included for small counties. Data are combined for some counties in eight states.

- **1947, 1948, 1951, and 1953.** Data are provided for first-quarter reporting units, employment, and taxable payrolls for each large county in the state and, in a separate report, for the United States. Data are included for SIC economic divisions, major groups, and selected three-digit SICs. Economic division totals are included for small counties. Data are combined for some counties in eight states.

- **1946.** Data are provided for first-quarter reporting units, employment, and taxable payrolls for each large county in the state and, in a separate report, for the United States. Data are included for SIC economic divisions and major groups. Economic division totals are included for small counties. Data are combined for some counties in eight states.

**Electronic Data Formats**

County Business Patterns series data are available on CD-ROM, which includes software for creating County Business Patterns data files compatible with popular database and spreadsheet software. In addition, ZIP Code Business Patterns data are available on DVD-ROM starting in 2002 and on CD-ROM for previous years. ZIP Code Business Patterns data are available shortly after the release of County Business Patterns and include the number of establishments by NAICS industry.

Recent County Business Patterns publications also are available in Portable Document Format (PDF) at www.census.gov/prod/www/abs/cbptotal.html. In order to view these files, you will need the Adobe Reader, which is available for free from the Adobe Web site at www.adobe.com.

Older County Business Patterns publications, not shown at the link above, can be found at a Federal Depository Library. To locate a Federal Depository Library, go to www.gpoaccess.gov on the Internet.
The American FactFinder system, located at www.census.gov, allows selective retrieval and downloading of County Business Patterns data.

Customer Services Center
Marketing Services Office
U.S. Census Bureau
Washington, DC 20233

Telephone: 301-763-INFO (4636)
Internet address: www.census.gov

**SOURCES OF DATA**

County Business Patterns basic data items are extracted from the Business Register, a file of all known single and multiestablishment employer companies maintained and updated by the U.S. Census Bureau. The annual Company Organization Survey provides individual establishment data for multiestablishment companies. Data for single-establishment companies are obtained from various Census Bureau programs, such as the Annual Survey of Manufactures and Current Business Surveys, as well as from administrative records of the Internal Revenue Service, the Social Security Administration, and the Bureau of Labor Statistics.

**INDUSTRY AND GEOGRAPHY CLASSIFICATIONS**

The quinquennial economic censuses are the primary source for industry and geography classifications. The annual Company Organization Survey, Annual Survey of Manufactures, Current Business Surveys, and other Census Bureau programs provide regular updates.

**Industry Classification**

Additional sources for assigning industry classifications are the Social Security Administration, the Internal Revenue Service, and the Bureau of Labor Statistics. These sources provide industry classification information for new businesses and businesses not canvassed in the Census Bureau programs. Establishments without sufficient industry information are tabulated in the "unclassified establishments" group.

Industry classifications are explained in Appendix B. The industry titles used throughout this series are the short NAICS titles; complete descriptions are contained in the manual entitled *North American Industry Classification System: United States, 2002*.

**Geography Classification**

Most geography codes are derived from the physical location address reported in Census Bureau programs. The Internal Revenue Service and the Bureau of Labor Statistics provide supplemental address information. Those employers without a fixed location within a state (or of unknown county location) are included under a “statewide” classification at the end of the county tables. This incomplete detail causes only slight understatement of county employment. The independent cities in Virginia, and the cities of Baltimore, MD; Carson City, NV; and St. Louis, MO, are treated as separate counties.

**Employee Leasing Services**

Historically, the permanent on-site work force at a business location were paid employees of that establishment. This traditional practice of firms directly hiring employees is still the dominant employer/employee relationship in the United States. However, over the past decade a new work force arrangement has emerged.

Under this new arrangement, a company commonly known as an employee leasing company or professional employer organization (PEO) operates in a co-employment relationship with client businesses. Employee leasing establishments typically acquire and lease back some or all of the employees of their clients, and serve as the employer of record of the leased employees for payroll, benefits, and related purposes.
The 2004 County Business Patterns shows over 1.52 million employees in employee leasing services (NAICS 561330), down from 1.56 million employees published in the 2003 CBP. Clearly, the employees are not classified in the predominant industry of the client businesses. Also, leasing companies may pay these employees out of a single payroll office. This may result in the leasing company’s employment and payroll data being reported in the county where the payroll office is located, thus distorting the data for that county. In some cases, many thousands of employees may be paid from a single payroll office. Therefore, for geography purposes, we may publish employee-leasing establishments in the “statewide” category in states where such payroll offices are located, as these establishments service multiple counties.

DATA WITHHELD FROM PUBLICATION

In accordance with U.S. Code, Title 13, Section 9, no data are published that would disclose the operations of an individual employer. However, the number of establishments in an industry classification and the distribution of these establishments by employment-size class are not considered to be disclosures, and so this information may be released even though other information is withheld from publications.

RELIABILITY OF DATA

All data are tabulated from universe files and are not subject to sampling errors. However, the data are subject to nonsampling errors. Nonsampling errors can be attributed to many sources: inability to identify all cases in the universe; definition and classification difficulties; differences in interpretation of questions; errors in recording or coding the data obtained; and estimation of employers who reported too late to be included in the tabulations and for records with missing or misreported data.

The accuracy of the data is determined by the joint effects of the various nonsampling errors. No direct measurement of these effects has been obtained; however, precautionary steps were taken in all phases of collection, processing, and tabulation to minimize the effects of nonsampling errors. Additional information on survey coverage and methodology is found in Appendix C.

ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used with the 2004 County Business Patterns data:

- Represents zero (page image/print only)
D Withheld to avoid disclosing data of individual companies; data are included in higher level totals
X Not applicable
a 0 to 19 employees
b 20 to 99 employees
c 100 to 249 employees
e 250 to 499 employees
f 500 to 999 employees
g 1,000 to 2,499 employees
h 2,500 to 4,999 employees
i 5,000 to 9,999 employees
j 10,000 to 24,999 employees
k 25,000 to 49,999 employees
l 50,000 to 99,999 employees
m 100,000 employees or more
## Table 1. Establishments, Employees, and Payroll by Major Group for the State: 2004 and 2003

[Excludes most government employees, railroad employees, and self-employed persons. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.]

U.S. Census Bureau
Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. See also explanation of terms. For the full technical documentation, see Appendix C.

Table 1. Establishments, Employees, and Payroll by Major Group for the State: 2004 and 2003

—Con.
Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.]

### Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.]

### Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

| NAICS code | Geography, kind of business, and employment size class | Establishments (number) | Paid employees for pay period including March 12 (number) | First-quarter payroll ($1,000) | Annual payroll ($1,000)
|------------|--------------------------------------------------------|-------------------------|----------------------------------------------------------|------------------------------|--------------------------
| 31-33      | Manufacturing—Con.                                     |                         |                                                          |                              |                          |

County Business Patterns Vermont 113
U.S. Census Bureau
Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

See footnotes at end of table.
Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.]

See footnotes at end of table.
Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.

County Business Patterns Vermont 235

U.S. Census Bureau
Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 2. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments for the State: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Note: Establishment is defined as an economic unit. This report excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.

See footnotes at end of table.

Table 5. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments by County: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

### Table 5. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments by County: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.]

Table 5. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments by County: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

### Table 5. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments by County: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C]

Table 5. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments by County: 2004—Con.

Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.

Table 5. Establishments, Employees, and Payroll by Industry and Employment Size of Establishments by County: 2004—Con.

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 employees includes establishments having payroll, but no employees, during mid-March pay period. For meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For statement on reliability, see the note at the end of the table and Appendix C.]
