

Monthly State Retail Sales for June 2023

Released September 28, 2023

Overview

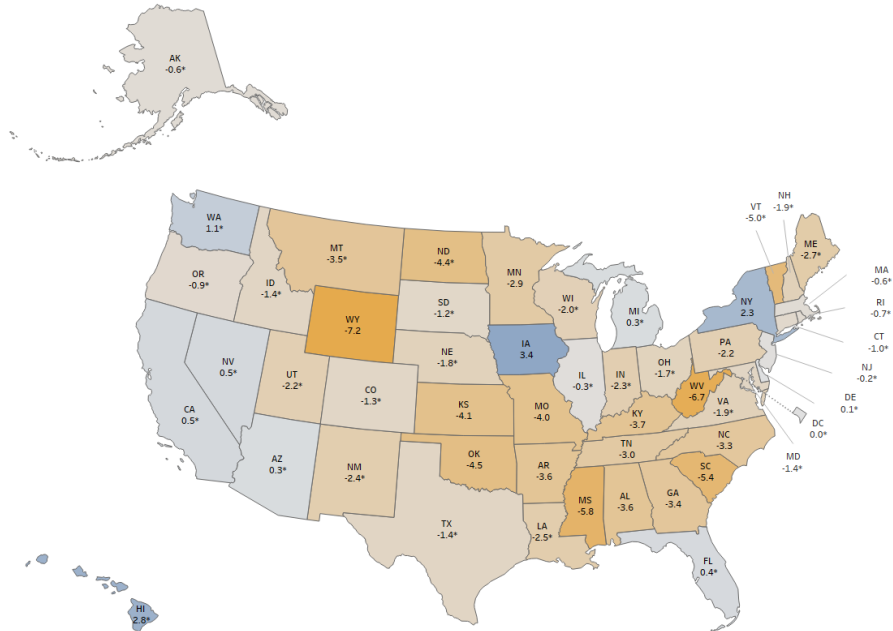

The U.S. Census Bureau introduced the Monthly State Retail Sales (MSRS) report as an experimental data product in September 2020. The MSRS is a blended data product combining Monthly Retail Trade Survey data, administrative data, and third-party data. Year-over-year percentage changes are available for Total Retail Sales excluding Nonstore Retailers as well as 11 North American Industry Classification System (NAICS) retail subsectors. These data are provided by state and NAICS beginning in January 2019. We will publish these data monthly on an ongoing basis and seek ways to improve the methodology whenever possible.

Total Retail Sales

Total U.S. Retail Sales excluding Nonstore Retailers (not seasonally adjusted) in June 2023 were down 1.2 percent (± 0.4 percent) from June 2022.

Fifteen states had negative and significant year-over-year percentage changes from June 2022 to June 2023.

June 2023 State Year-over-Year Percentage Changes for Total Retail excluding Nonstore Retailers

S= Estimate suppressed due to quality concerns
* The 90 percent confidence interval includes zero. There is insufficient statistical evidence to conclude that the actual change is different from zero.
Note: State retail sales data not adjusted for seasonal variation, trading-day differences, moving holidays or price changes.

State retail sales data not adjusted for seasonal variation, trading-day differences, moving holidays or price changes.

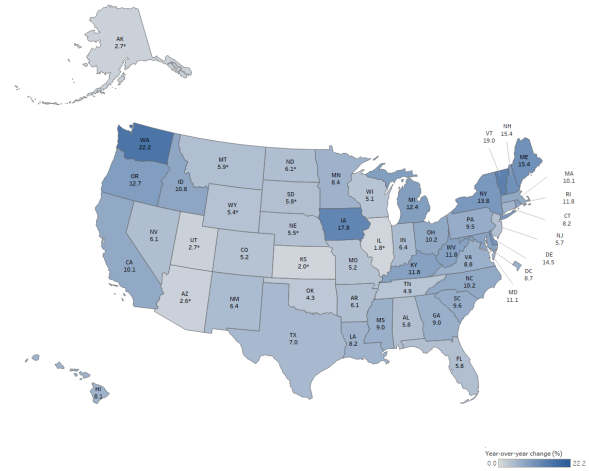

* The 90 percent confidence interval includes zero. There is insufficient statistical evidence to conclude that the actual change is different from zero.

The COVID-19 pandemic may lead to atypical year-over-year percentage changes in the MSRS data. The standard errors associated with these percentage changes may also be atypical. The MSRS standard errors are available [here](#). As you analyze the data during these months, it is important to consider this information in the use of these data. More information on the limitations of the MSRS data is available [here](#).

For more state-level data on these subsectors, quality metrics, and technical documentation, please visit: https://www.census.gov/retail/state_retail_sales.html.
