

Monthly State Retail Sales for June 2026

Released September 24, 2026

Overview

The U.S. Census Bureau introduced the Monthly State Retail Sales (MSRS) report as an experimental data product in September 2020. The MSRS is a blended data product combining Monthly Retail Trade Survey data, administrative data, and third-party data. Year-over-year percentage changes are available for Total Retail Sales excluding Nonstore Retailers as well as 11 North American Industry Classification System (NAICS) retail subsectors. These data are provided by state and NAICS beginning in January 2019. We publish these data monthly on an ongoing basis and seek ways to improve the methodology whenever possible.

Total Retail Sales

Total U.S. Retail Sales excluding Nonstore Retailers (not seasonally adjusted) in June 2026 were up 7.4 percent (± 0.4 percent) from June 2025.

Forty-eight states had positive and significant year-over-year percentage changes from June 2025 to June 2026.

Special Notice

The July 2026 MSRS publication will include an annual update. This update to the MSRS estimates will incorporate revisions of the Monthly Retail Trade Survey (MRTS) sales estimates and other improvements to methodology. The July 2026 MSRS release is scheduled for November 16, 2026.

June 2026 State Year-over-Year Percentage Changes for Total Retail excluding Nonstore Retailers

S = Estimate suppressed due to quality concerns

* The 90 percent confidence interval includes zero. There is insufficient statistical evidence to conclude that the actual change is different from zero.
Note: State retail sales data does not adjust for seasonal variation, trading-day differences, moving holidays or price changes.

Source: U.S. Census Bureau, Monthly Retail Sales by State, June 2026

State retail sales data not adjusted for seasonal variation, trading-day differences, moving holidays or price changes.

* The 90 percent confidence interval includes zero. There is insufficient statistical evidence to conclude that the actual change is different from zero.

Gasoline Stations (NAICS 447)

Retail sales for Gasoline Stations (not seasonally adjusted) for the United States in June 2026 were up 20.1 percent (± 1.2 percent) from June 2025.

Forty-six states had positive and significant year-over-year percentage changes from June 2025 to June 2026.

June 2026 State Year-over-Year Percentage Changes for Gasoline Stations

Sporting Goods, Hobby, Musical Instrument, and Book Stores (NAICS 451)

June 2026 State Year-over-Year Percentage Changes for Sporting Goods, Hobby, Musical Instrument, and Book Stores

Retail sales for Sporting Goods, Hobby, Musical Instrument, and Book Stores (not seasonally adjusted) for the United States in June 2026 were up 13.7 percent (± 2.3 percent) from June 2025.

Twelve states had positive and significant year-over-year percentage changes from June 2025 to June 2026.

State retail sales data not adjusted for seasonal variation, trading-day differences, moving holidays or price changes.

* The 90 percent confidence interval includes zero. There is insufficient statistical evidence to conclude that the actual change is different from zero.

The COVID-19 pandemic may lead to atypical year-over-year percentage changes in the MSRS data. The standard errors associated with these percentage changes may also be atypical. The MSRS standard errors are available [here](#). As you analyze the data during these months, it is important to consider this information in the use of these data. More information on the limitations of the MSRS data is available [here](#).
