

**Zellner, A., editor, (1978), "Seasonal Analysis of Economic Time Series",
Proceedings of a Bureau of the Census-NBER-ASA Conference, U.S.
Department of Commerce, U.S. Bureau of the Census, Washington D.C.**

Contents

OPENING STATEMENT, by Arnold Zellner	xiii
SECTION I. OBJECTIVES AND FRAMEWORK OF SEASONAL ANALYSIS	
An Overview of the Objectives and Framework of Seasonal Adjustment, by Shirley Kallek	3
Comments by Gary Fromm	26
by Lawrence R. Klein	30
Seasonality: Causation, Interpretation, and Implications, by Clive W. J. Granger	33
Comments by Christopher A. Sims	47
by John W. Tukey	50
Response by Clive W. J. Granger	55
SECTION II. DESCRIPTION AND ANALYSIS OF SEASONAL ADJUSTMENT PROCEDURES IN USE	
A Survey and Comparative Analysis of Various Methods of Seasonal Adjustment, by John Kuiper	59
Comments by J. P. Burman	77
by Estela Bee Dagum	85
Response by John Kuiper	93
SECTION III. KEYNOTE ADDRESS	
Seasonal Adjustment of Sensitive Indicators, by Julius Shiskin	97
SECTION IV. IMPROVEMENTS AND SPECIAL PROBLEMS IN PROCEDURES CURRENTLY IN USE	
The Analysis of Single and Related Time Series into Components: Proposals for Improving X-11, by Raphael Raymond V. BarOn	107
Comments by John F. Earl	159
by Harry V. Roberts	161
Response by Raphael Raymond V. BarOn	171
Seasonal Adjustment When the Seasonal Component Behaves Neither Purely Multiplicatively nor Purely Additively, by J. Durbin and P. B. Kenny	173
Comments by Neva VanPeski	189
by Craig F. Ansley, W. Allen Spivey, and William J. Wroblewski	193
Response by J. Durbin and P. B. Kenn	197

SECTION V. NEW METHODS FOR ANALYZING SEASONAL PROBLEMS

SABL: A Resistant Seasonal Adjustment Procedure With Graphical Methods for Interpretation and Diagnosis, by William S. Cleveland, Douglas M. Dunn, and Irma J. Terpenning	201
Comments by Peter Bloomfield	232
by William P. Cleveland	237
Seasonal Adjustment When Both Deterministic and Stochastic Seasonality Are Present, by David A. Pierce	242
Comments by Larry D. Haugh	270
by William E. Wecker	274
Estimating Structural Models of Seasonality, by Robert F. Engle	281
Comments by E. Philip Howrey	298
by Donald G. Watt	303
Response by Robert F. Engle	308
Analysis and Modeling of Seasonal Time Series, by George E. P. Box, Steven Hillmer, and George C. Tiao	309
Comments by George A. Barnard	335
by Emanuel Parzen	338

SECTION VI. ECONOMETRIC MODELING AND SEASONALITY

Seasonal Adjustment and Multiple Time Series Analysis, by Kenneth F. Wallis	347
Comments by Charles R. Nelson	358
by Thomas Sargent	361
A Time Series Analysis of Seasonality in Econometric Models, by Charles I. Plosser	365
Comments by Gregory C. Chow	398
by Raymond E. Lombra	402
Response by Charles I. Plosser	407

SECTION VII. AGGREGATION AND SEASONAL ANALYSIS

The Temporal and Sectoral Aggregation of Seasonally Adjusted Time Series, by John Geweke	411
Comments by Michael C. Lovell	428
by John B. Taylor	431
Some Consequences of Temporal Aggregation in Seasonal Time Series Models, by William W. S. Wei	433
Comments by P. M. Robinson	445

SECTION VIII. GENERAL DISCUSSION AND SUMMARY

Retrospect and Prospect, by Arnold Zellner	451
General Discussion	457
by John W. Tukey	
by Raphael Raymond V. BarOn	457
by Herbert M. Kaufman	457

SECTION IX. CONTRIBUTED COMMENTS

Seasonal Adjustment When Both Deterministic and Stochastic Seasonality Are Present, by David A. Pierce, by John P. Burman	461
Analysis and Modeling of Seasonal Time Series, by George E. P. Box, Steven Hillmer, and George C. Tiao, by John P. Burman	462
A Survey and Comparative Analysis of Various Methods of Seasonal Adjustment, by John Kuiper, by Dennis Farley and Stephen Zeller	464
	468
Analysis and Modeling of Seasonal Time Series, by George E. P. Box, Steven Hillmer, and George C. Tiao, by Agustin Maravall	470
	472
	474
The NBER-Census Conference on Seasonal Analysis of Economic Times Series, by Allan H. Young	475
INDEX	481
